

Teamwork

Get Started

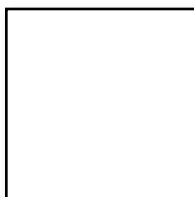

Get 36 squares.

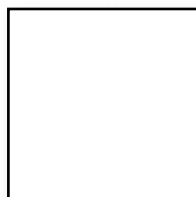

Put **2 3 4 5 6** in a bag. Work together.

Repeat for Each Round

Pick two tiles. Place them in the spaces on the left below. Take turns doing the steps below in order. For each step, use squares to display an array. Explain why that array matches the fact.

X

STEP 1

Say the multiplication fact.

STEP 2

Say another multiplication fact in the same family.

STEP 3

Say a division fact in the same family.

STEP 4

Say a different division fact in the same family.

If you have more time

Begin by making an array. Ask your team members to display factors for your array, and then to complete steps 1 – 4.
